# British Steam Railways Experience

ENGLAND | HERITAGE RAILWAYS | 14 DAY TOUR

The air is filled with nostalgia, and the scent of burning coal as smoke and steam wafts around the glorious locomotive sitting at the head of a train of beautifully restored period coaches in readiness to take you to your destination. A whistle from the Guard beckons "All Aboard!" as the distinctive sound of wooden carriage doors close behind the boarding passengers along the length of the platform. A purposeful whistle from the locomotive fills the air. Metal creaks and carriages rattle as the powerful locomotive takes the strain. With great belches of purposeful smoke and clouds of steam the locomotive pulls away from the station and your journey back in time begins. This trip is one for the true steam railway enthusiast. This 14-day tour of England takes in some of the most significant heritage railways in the world. Take a step back in time to a more romantic bygone age where steam provided a gloriously powerful and more gentlemanly mode of transport.

## Group Tour Individual Attention

- Carefully crafted itinerary designed for both the steam railway enthusiasts and their partners
- Tours designed and delivered by fellow steam railway enthusiasts underpinned by a highly experienced, accredited group tour operator
