DAY 2 YORK - CARLISLE 'Silver Service' RAILWAY EXCURSION Sunday 4th July 2027

Morning Early departure from the hotel - Breakfast will be enjoyed on the train!

Entire Group **0630am** Board our coach for the short transfer to the historic York Railway station

THE STEAM HAULED DAY TOUR

We arrive at the iconic York Railway Station where we meet our steam locomotive and train. This steam hauled train provides an opportunity for passengers from York to travel over the spectacular Settle & Carlisle Railway, probably the most famous railway route in Britain. Enjoy a silver-service breakfast and dinner aboard as we travel along this amazing rail line. We also visit the Cumbrian market town of Appleby or the border city of Carlisle.

Our steam hauled train leaves York at 09:30 and heads for Church Fenton where we take the direct route to Leeds. We stop to pick up more passengers at Leeds, Shipley, Keighley and Skipton.

There will be a stop for our steam locomotive to take on water before we join the famous Settle & Carlisle Railway at Settle Junction. Here begins one of the most arduous climbs on Britain's railway network, a total of 15 miles mainly at a gradient of 1 in 100.

We cross the breathtaking **Ribblehead Viaduct**, high above the valley floor, and enter Blea Moor Tunnel. We pass through the highest station open in England at Dent, travelling through tunnels and crossing valleys on numerous viaducts.

There are magnificent views across the Fells to the Pennine Three Peaks of Pen-y-ghent, Wherside and Ingleborough as we make the final ascent to Ais Gill Summit (1,169 feet). We travel high above the valley at Mallerstang and then drop down through Kirkby Stephen to Appleby, where our locomotive takes on water.

Afternoon **CARLISLE**

Our train leaves Carlisle for the return journey at around 4:15pm and climbs almost continuously for just under 50 miles back up to Ais Gill summit. We stop, en-route, at Appleby for our steam locomotive to take on water and to pick up those passengers who spent the afternoon there. We continue our journey back to York, stopping at Skipton, Keighley, Shipley, Leeds, and York.

Evening **You are free for the remainder of the evening**

Overnight in York (2)

DAY 3 **NATIONAL RAILWAY MUSEUM - YORK**

Monday 5th July 2027

Morning **Enjoy breakfast at your accommodation**

NATIONAL RAILWAY MUSEUM

The National Railway Museum in York is part of the Science Museum Group. The museum tells the story of rail transport in Britain and its impact on society. It is the home of the national collection of historically significant railway vehicles such as Mallard, Stirling Single, Duchess of Hamilton and a Japanese bullet train. In addition, the National Railway Museum holds a diverse collection of other objects.

- CITY WALL WALK**

THE CITY OF YORK

York is an ancient walled city in northeast England that was founded by the Romans. Its huge 13th-century Gothic cathedral, York Minster, has medieval stained glass and two functioning bell towers. The City Walls form a walkway on both sides of the River Ouse. The Monk Bar gate houses an exhibition tracing the life of 15th-century Plantagenet King Richard III.

Entire Group Spend the day exploring the “Shambles” precinct, the York Air Museum, Castle Howard and the York Castle Museum

Lunch **Self catered**, there are many amazing cafes and pubs to enjoy

Evening **A Group dinner is included this evening**

Overnight in York (3)

DAY 4 NORTH YORKSHIRE MOORS RAILWAY

Tuesday 6th July 2027

Morning **Breakfast at your York accommodation**

Entire Group Board your coach for your travel 35mins north to Pickering

PICKERING, WHITBY, AND THE NORTH YORKSHIRE MOORS RAILWAY Spend the day riding the North Yorkshire Moors Railway and enjoying everything it has to offer steam railway enthusiasts. **Lets have lunch on the train in a Pullman Carraige.** The North Yorkshire Moors Railway (NYMR) runs through the North York Moors National Park. First opened in 1836 as the Whitby and Pickering Railway, the railway was planned in 1831 by George Stephenson as a means of opening up trade routes inland from the then important seaport of Whitby.

The line between Grosmont and Rillington was closed in 1965 and the section between Grosmont and Pickering was reopened in 1973 by the North York Moors Historical Railway Trust Ltd. The preserved line is now a tourist attraction and has been awarded several industry accolades.

Alternative

Tour the village of Pickering, an ancient market-town and civil parish in the Ryedale district of North Yorkshire, England, on the border of the North York Moors National Park. Historically part of the North Riding of Yorkshire, it sits at the foot of the moors, overlooking the Vale of Pickering to the south. According to legend the town was founded by King Peredurus around 270 BC; however, the town as it exists today is of medieval origin. The legend has it that the king lost his ring and accused a young maiden of stealing it, but later that day the ring was found in a pike caught in the River Costa for his dinner. The king was so happy to find his ring he married the young maiden; the name Pike-ring changed over the years to Pickering. It is a nice tale told to fit the name, but it is not the origin. Pickering is thought to be named after the followers of an Anglian man named Picer or some such personal name – the Picer-ingas.

WHITBY

Whitby is a seaside town split by the River Esk. On the East Cliff, overlooking the North Sea, the ruined Gothic Whitby Abbey was Bram Stoker’s inspiration for “**Dracula**”. Nearby is the Church of St. Mary, reached by 199 steps. The Captain Cook Memorial Museum, in the house where Cook once lived, displays paintings and maps. West of town is West Cliff Beach, lined with beach huts.

Evening

You are free for the remainder of the evening

Overnight in York (4)

DAY 5 KEIGHLEY WORTH VALLEY RAILWAY Wednesday 7th July 2027

Morning

Breakfast at your accommodation

Entire Group

Board your coach and take the journey to Keighley

KEIGHLEY AND THE WORTH VALLEY RAILWAY

The Worth Valley branch out of Keighley climbs up the valley serving several small Pennine villages along the way. At Oakworth, the railway leaves the valley of the River Worth and enters the valley of Bridgehouse Beck, wherein lie Haworth and the line’s terminus at Oxenhope.

The line reopened in 1968 and has been owned, operated and managed entirely by qualified volunteer members of the Preservation Society ever since. The sale of the Worth Valley branch was the first privatisation of any part of British Railways.

Transfer to Liverpool and check in to your new accommodation

Evening **You are free for the remainder of the evening**

Overnight in Liverpool (1)
The Radisson Red Hotel Liverpool

DAY 6 **LIVERPOOL – BEATLES TOUR**

Thursday 8th July 2027

Morning **Breakfast at your accommodation**

Entire Group **BEATLES EXPERIENCE TOUR**

Set off by coach to visit the most famous Beatles-related sights. During the tour, enjoy regular photo stops—including Penny Lane, Strawberry Field, the childhood home of Paul McCartney, and The Cavern Club—where the Beatles performed 292 times.

Afternoon **HATTONS MODEL RAILWAY SHOP**

Hattons was established by Norman Hatton upon his demob from the army in 1946. He bought a small shop in Smithdown Road, where he sold anything that was in demand after the war. Things we take for granted today were in high demand with little supply to be found. Items such as firewood, second hand toys and fireworks sold like hot cakes. Gradually he found toys and particularly model trains were forming the bulk of the business and that, by advertising, customers could be obtained nationwide.

Evening **Dinner is included this evening**

Overnight in Liverpool (2)
The Radisson Red Hotel Liverpool

DAY 7 **SNOWDON MOUNTAIN RAILWAY - WALES**

Friday 9th July 2027

Morning **Breakfast at your accommodation**

Board your coach, sit back and relax, and enjoy the scenic 2-hour road trip to northern Wales

Afternoon**SNOWDON MOUNTAIN RAILWAY**

Eryri National Park is home to many Arctic Alpine plants. These include Alpine meadow-grass, tufted saxifrage, Alpine saxifrage, Alpine woodsia and Alpine cinquefoil.

The company currently operates three coal-fired steam locomotives manufactured by the Swiss Locomotive & Manufacturing Co. of Winterthur. Two of the original ones date back to 1895 and 1896. The first of the original locomotives cost £1,525.

The boilers are inclined on the locomotives to ensure the boiler tubes and the firebox remain submerged while on the gradient, a standard practice on mountain railways. The locomotive always runs chimney first up the mountain pushing a single carriage in front of it. For safety reasons, the carriage is not coupled to the locomotive. The railway is laid to a gauge of 2 ft 7 ½ in (800 mm), which is common to most mountain railways. It consists of a single track with three passing loops spaced equidistantly between Llanberis and the summit, with Hebron at 1069 ft (326 m), Halfway at 1641 ft (500 m) and Clogwyn at 2556 ft (779 m). The average speed of the trains is 5 mph (8 kph).

The total length of the railway is 4.7 miles and 1188 yards (7.53 km), with an average gradient of 1 in 7.86. The steepest gradient on the route is 1 in 5.5.

DAY 8**WEST HIGHLAND Ffestiniog RAILWAY****Saturday 10th July 2027****Morning**

Breakfast at your accommodation

Entire Group

Board the coach for the short trip to the highly acclaimed **Ffestiniog** narrow gauge railway.

Morning WEST HIGHLAND Ffestiniog RAILWAY

Take a journey on the spectacular **Ffestiniog Railway**, the world's oldest narrow-gauge railway with almost 200 years of history, taking you on a 13½-mile journey from the harbour in Porthmadog to the slate-quarrying town of Blaenau Ffestiniog. The historic trains climb over 700 feet from sea level into the mountains through tranquil pastures and magnificent forests, past lakes and waterfalls, round tight bends (even a complete spiral) clinging to the side of the mountain or tunnelling through it.

The Welsh Highland Railway is the UK's longest heritage railway and runs for 25 miles from Caernarfon, past the foot of Snowdon and the picture postcard village of Beddgelert, then through the stunning Aberglaslyn Pass and on to Porthmadog. Passengers ride in some of the most comfortable carriages on any heritage railway in the UK, including first class Pullman luxury. Caernarfon Station provides a fitting gateway to the heart of the Snowdonia National Park.

Afternoon Return to your accommodation by coach

Evening Time at your leisure this evening – You may care to take a walk or visit the Talyllyn Railway

TALYLLYN RAILWAY

The Talyllyn Railway is the first preserved railway in the World, known affectionately as 'The Railway with a Heart of Gold'. It was over 150 years ago, in 1865, that the line opened and in 1951 the Preservation Society was born to take over the Railway after the death of the owner Sir Haydn Jones. The heritage steam engines transport passengers from Tywyn, the coastal town on the edge of the Snowdonia National Park, to Nant Gwernol buried deep in the mountains above Abergynolwyn. The journey itself crosses more than seven miles of spectacular scenery within sight of one of Britain's highest mountains, Cadair Idris.

Overnight in Talyllyn (2)

DAY 9 SEVERN VALLEY RAILWAY**Sunday 11th July 2027**

Morning Breakfast at your accommodation before checking out of your accommodation

Board your coach for the journey to Bridgnorth and a visit to the Severn Valley Railway

Entire Group SEVERN VALLEY RAILWAY

The Severn Valley Railway is a heritage railway in Shropshire and Worcestershire, England. Spend the day riding the trains and experiencing all that the famous Severn Valley Railway has to offer, including the railway museum, café, and the pub located on the Kidderminster station platform. The 16-mile long heritage line runs along the Severn Valley from Bridgnorth to Kidderminster.

It crosses the Shropshire/Worcestershire border, following the course of the River Severn for much of its route. Train services are hauled predominantly by steam locomotives, plus one diesel hauled train, making two round trips a day, on most days. Your ticket gives you the freedom of the railway for the entire day.

Evening You are free for the remainder of the evening

Overnight in Kidderminster (1)
Stourport Manor Hotel

DAY 10 GREAT WESTERN RAILWAYS - DIDCOT**Monday 12th July 2027****Morning Breakfast at your accommodation before checking out of your accommodation**

Board your coach for the journey to Blenheim Palace

Entire Group BLENHEIM PALACE

A true masterpiece of 18th Century Baroque architecture, Blenheim Palace delivers an awe-inspiring experience for visitors. The stunning State Rooms are brimming with priceless works of art and magnificent tapestries. Discover the beauty of this World Heritage Site amongst over 2000 acres of 'Capability' Brown parkland and Formal Gardens with a water garden. Ride the miniature train to the Pleasure Gardens which offers a giant hedge maze, butterfly house and adventure playground.

Tours, exhibitions, and events reveal the sheer splendor of one of Britain's greatest palaces. Blenheim Palace is more than another one of England's stately homes. Take a **tour of the Blenheim Palace State Rooms** where their own guide will bring the history of this fabulous palace to life.

Blenheim Palace is a multi-faceted attraction, providing a range of things to do including:

- Tour of Blenheim Palace: the Untold Story, a new "visitor experience" featuring animated figures and sound effects
- Churchill Exhibition, including the room of Churchill's birth
- Several formal gardens including the Italian Garden, the Water Terraces, and, in season, a stunning rose garden
- The Pleasure Gardens Reached from its own small parking lot or, between April and October via the estate's own narrow-gauge railway, the Pleasure Gardens include a maze and a butterfly house

SIR WINSTON CHURCHILL

Winston Churchill was an inspirational statesman, writer, orator and leader who led Britain to victory in the Second World War. He served as Conservative Prime Minister twice - from 1940 to 1945 and from 1951 to 1955. In January 1965 Sir Winston Churchill was buried in the churchyard at the head of the grave of Lady Randolph Churchill his mother. His father, Lord Randolph Churchill is buried alongside.

He was given a state funeral and his last farewell was a grand affair with the Queen, members of the royal family, statesmen and diplomatic representatives from 112 countries attended his service at St. Paul's Cathedral

Afternoon

GWR - DIDCOT RAILWAY CENTRE

Board your coach as we visit the Didcot Railway Centre in Oxfordshire, home to a collection of Great Western Railways history. Spread over 21 acres, the Centre comprises several magnificent exhibits, including the only surviving working example of a Coal Stage, a type of building once commonplace at locomotive sheds.

Wagons loaded with coal are propelled up the steep incline – at the top, the solid fuel is transferred into tubs which then tip to fill the bunker of a locomotive waiting below. Stroll around the Engine Shed and discover 15 or more preserved locomotives. Climb onto the footplates of those where stairs are provided and imagine yourself in the shoes of a driver or fireman.

From a platform ticket machine to brass nameplates and distinctive posters the Museum is full of exhibits recalling the heyday of the Great Western Railway. See the turntable which is used to ensure that tender locomotives are facing in the direction of travel. The current turntable is located where the 1932 Great Western table was originally located. Coaches dating from Victorian times to the 1940s evoke bygone eras. See the VIP Saloon reputed to have been used by General Eisenhower during the preparations for D-Day and later used in the GWR Royal Train.
